fastsprayers.com

TRACK TANKS STANDARD EQUIPMENT

- John Deere RT Series approximately 1,100 gallon capacity for fewer refills, and time savings
- John Deere 8000 Series approximately 950 gallon capacity
- Excellent weight distribution for smooth ride, maximum floatation, and minimum ground compaction
- Made from 10-gauge 304 stainless steel for reduced chemical residual
- Rubber-mounted on frame to reduce tank vibration
- Stainless steel welded in baffles to reduce tank fatigue
- Full length stainless steel agitation tubes for better product mixture
- Full flow 2" flanged drain fittings
- Tanks slide in from front for easy installation
- Will fit up to 18" wide tracks on 120" centers
- Power coat paint for longer lasting quality finish
